---

1. This is an offline event
2. It is a solo event
3. Registrations will be considered on a First Come First Serve basis
4. No registration fee
5. Only the team lead should register on behalf of the team.
6. In the inaugural round, a 45-minute affair of intellectual rigor, contestants will face a twofold test.

- First, a collection of 20 Multiple Choice Questions (MCQs) awaits, encompassing both elementary and intermediate levels of debugging conundrums.
- These MCQs will traverse the domains of C and Python programming and will be administered through the dynamic Quizizz platform.
- Following this, participants will encounter two thought-provoking programming questions via HackerRank and can be solved in the programming language of their choice.
- The grand finale unfolds in the second round, participants face a slate of 10 programming challenges, spanning the spectrum from medium to hard difficulty levels.
- The competition criteria for this stage are twofold: the number of programming challenges solved and the time taken to conquer them.

7. E- Certificates will be provided for all participants.
